

NASSOREEN LANGAH

Web Developer | 06 5701 2436 | nassoreen2546@gmail.com | <https://github.com/nassoreen>

SUMMARY

Recent Computer Science graduate with hands-on experience in web development and database design, having built multiple projects using HTML, CSS, JavaScript, PHP, React Native, and SQL. Passionate about developing clean, user-friendly applications and eager to contribute and grow as a Web Developer in a professional team.

EDUCATION

2022 - 2026 **Prince of Songkla University**
Bachelor of Science in Computer and Informatics for Management

SKILLS

- | | |
|--------------------------|---|
| • Languages | HTML, CSS, JavaScript, PHP, Python |
| • Frameworks & Libraries | React, Node.js, Django, Bootstrap 5, Tailwind CSS |
| • Databases | MySQL, Postgresql |
| • Tools & Platforms | Git, Docker, VSCode, DevTools |
| • Other | Rest api , GraphQL, Figma |

EXPERIENCE

Internship

Inspection and Certification Service Center, Faculty of Science, Prince of Songkla University

Position : Web Developer **10 Nov 2025 - 27 Feb 2026**

- Analyzed system requirements and designed application workflows
- Developed and implemented an AI chatbot to provide accurate and efficient user support
- Performed testing, debugging, and system improvements to enhance performance
- Prepared technical documentation and presented project outcomes

PROJECTS

- **FloraScan AI Flower Recognition App** Built a cross-platform mobile app using React Native with CNN-based image classification for real-time flower species recognition
- **CMSA Chatbot — AI Chatbot Website** Developed a full-stack AI chatbot using Ollama, Django, and PostgreSQL, allowing users to interact with a locally hosted language model
- **Movie Ticket Booking Website** Built a web application using HTML, CSS, PHP, and JavaScript with seat selection and booking management features
- **Student Registration Database System** Designed and managed a relational database using SQL to handle student records with efficient data retrieval and integrity
- **Restaurant Management System** Developed a full-featured restaurant management system using Java, supporting order processing and menu management with an intuitive interface to streamline daily operations
